DETAILED ACTION

The amendment filed on June 20, 2007 has been entered. Claims 3 and 5-24 are pending.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 9-10 and 15-16 are rejected under 35 U.S.C. 102(b) as being anticipated by Welding et al. Element 46 is read as the “reinforcing fin.” Regarding claim 9, the presence of a method limitation in an apparatus claim bears no patentable weight in this instance. See MPEP 2113.

Allowable Subject Matter

Claims 3, 5-6, 13 and 17-24 are allowed.

Claims 7-8, 11-12 and 14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

The objection to claim 6 is withdrawn in view of the amendment.

The anticipatory rejections in view of Sugimoto et al (5,992,514) are withdrawn.

Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection.

No further comments are deemed necessary at this time.
